

## 5 Oceans Fund

December 2017

### Performance Commentary

The 5 Oceans Fund was up 0.70% in November.

The Australasian focused Ranger Fund continued its recent positive run, up 1.06%. The global Acadian Fund was up 2.5% (in unhedged terms) though the currency hedging in place tempered some of these gains.

The bond managers had solid months with AMP and Kapstream both up around 0.3%.

Volatility continued its general drift lower across multiple asset classes. This contributed to Kohinoor being down 5.8% for the month (in AUD).

### Fund Strategy

The 5 Oceans Fund is designed to have a diversified asset and geographic exposure. The exposure to growth assets can be varied between 30% and 70% of the Fund depending on the underlying managers' assessment of market risk. This is quite different from traditional diversified funds which often target a set growth allocation and invest accordingly.

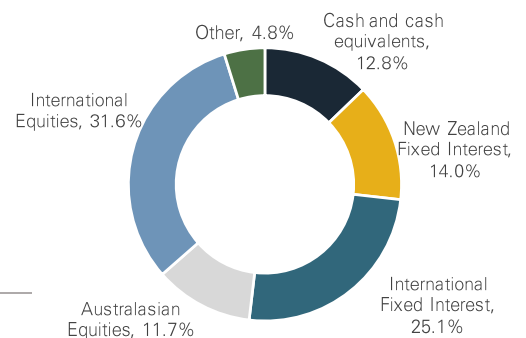

The Fund achieves this by carefully selecting managers that have flexible investment mandates and/or employ risk mitigation strategies. This gives the Fund a dynamic and flexible exposure to growth assets and greater focus on capital protection in the event of market crashes.

### Performance to 30 November 2017 (net of fees)

	Past Month	Past Quarter	Past Year	Since Inception (p.a.)*
